Subject: Microsoft Settlement

To Whom it may concern:

Please stop Microsoft from taking advantage of users and businesses. Don't allow them to keep their illegally obtained monopoly.

Their control of the PC market combined with their insatiable desire for power and their total disregard for computer security will cause great damage to businesses and home users in the future.

They continually produce insecure software and place it on computers all over the world. There is no choice. Call Dell or Gateway computer corporation and try to order a PC without Microsoft Windows installed, and they will tell you that that isn't possible. There is NO choice.

Bring choice and freedom back to America's PC users!!!
